

# Captain Noah

Who's your captain  
Let me come aboard your ship

It takes a crew to hoist that gaff rig, ahum,  
In those big kegs maybe there's one little jigger of rum  
Hey captain, Captain Noah, Let me come aboard your ship. Play one, now

We were minding our sails all the day  
Threw down an anchor when done  
When the fog rolled away  
Well, there's a schooner from 1871  
I said, Patch up that dinghy, grab them oars  
Let's see if we can board that ship

We're comin' aboard, just us two  
Looks like you're gonna have a little more crew  
Knife in my teeth and guitar on my back  
We climb the rigging, just like that  
Hey captain, Captain Noah,  
We're taking over your ship. Give it up now

Instr

It's been a hundred and fifty some years  
She's been sailing these seas  
With Captain Guild and Captain Sharp at the wheel  
Now I'm asking you please  
Hey captain, Captain Noah, you wanna take a day off of your shift

Let's get on down on this windjammer  
A yar vessel with that tumble home  
A bow sprit on this old schooner  
She'll be taking us along  
Hey captain, Captain Noah, let us come aboard your ship

It takes a crew to hoist that gaff rig, ahum,  
In those big kegs have you one little jigger of rum

Hey captain, Captain Noah,  
How bout we board your ship  
    We got some instruments comin 'board  
    (take a little break, play some music yeah)

Hey captain, Captain Noah  
You let us come aboard, we're singing two by two, how cool it is aboard your ship
